

IN THE DRAWINGS

In the drawings, please substitute the sheet containing FIGs. 14-15 with the attached replacement sheet containing FIGs. 14-15 in amended form (i.e. FIG. 15 revealing the laminated yoke structure).

REMARKS

The Applicant respectfully submits this *Response* to the Examiner's requirements indicated in the Notice of Allowance papers of 15 November 2005.

In the Examiner's Amendments/Comments in the Notice of Allowance papers mailed on 15 November 2005, the Examiner indicated that Figure 15 should be amended to include a showing of the laminations (i.e. alternating magnetic and dielectric layers) pursuant to 37 CFR 1.83(a) and identify yoke layer 1402. This is required in response to the amendments to the claims by the Applicant. In response, the Applicant submits a replacement sheet for FIGs. 14-15 to replace the current sheet for FIGs. 14-15, which modifies FIG. 15 to reveal the laminated structure of the yoke layer. No new matter has been added, as the showing of the lamination is merely conforming the drawing to that described in the text. The Applicant notes that "yoke layer 1402" need not be indicated in FIG. 15 as suggested by the Examiner, since the yoke in FIG. 15 is "yoke 1504" (i.e. different from yoke layer 1402 of previous figures in that it has been partially etched).

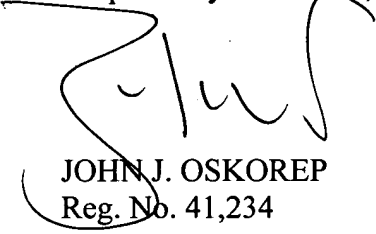

In the same paper, the Examiner indicated that the specification should also be amended to explain any additional reference numbers or markings that are added by the FIG. 15 amendment. In response, the Applicant submits a replacement paragraph to the paragraph which describes FIG. 15. The amendment to FIG. 15 merely adds the sentence: "In FIG. 15, the yoke 1504 is revealed to have the laminated materials made of alternating magnetic and dielectric layers formed previously in relation to FIG. 14." Again, no new matter has been entered.

Based on the above, the Applicant respectfully submits that all formalities have been taken care of and the application is now in a condition suitable for issuance.

Thank you. The Examiner is invited to contact the undersigned if necessary to expedite any further prosecution necessary for this case.

Date: 12 Dec 2005

Respectfully Submitted,

JOHN J. OSKOREP
